JUST. MONEY

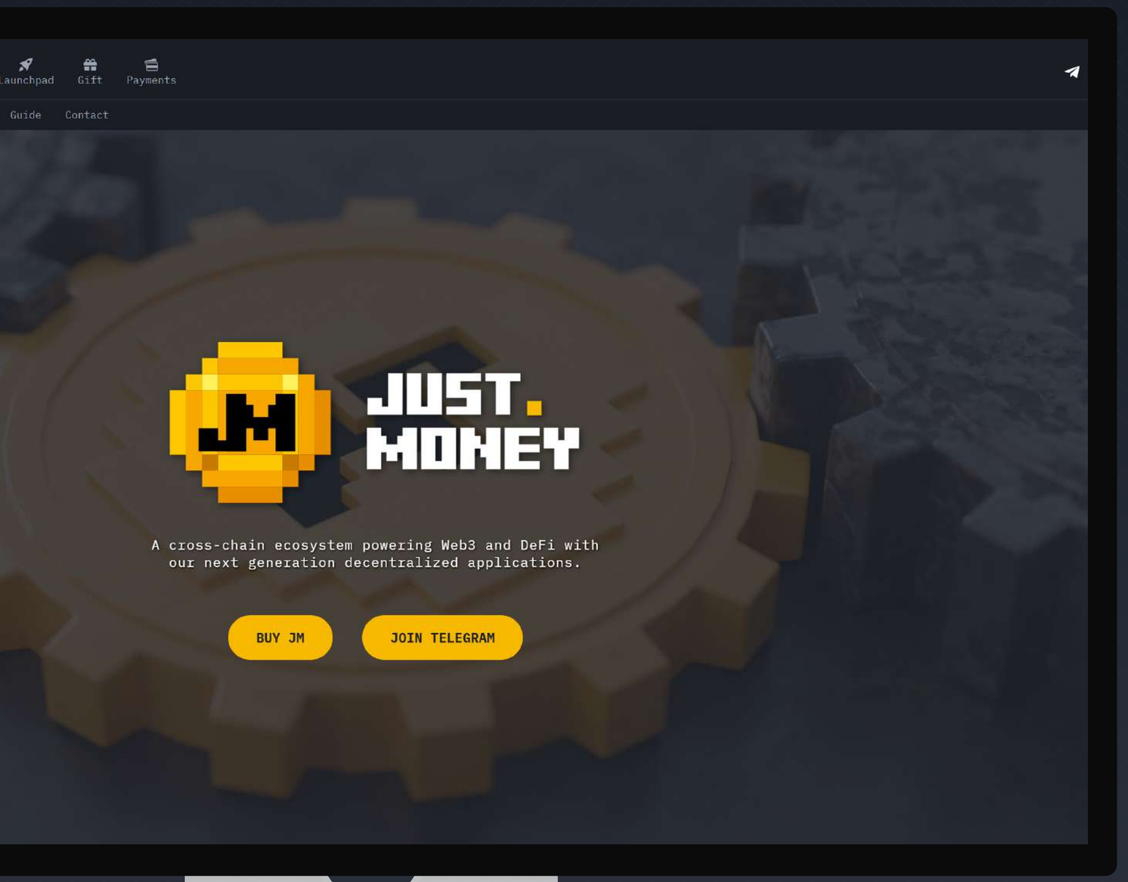
JUSTMONEY PROVIDES THE TOOLS FOR CRYPTOCURRENCY EXCHANGING, FOR MERCHANTS TO ACCEPT CRYPTOCURRENCY AND FOR CRYPTO PROJECTS TO GROW THEIR BUSINESS.



SOFTWARE FOR ALL STAKEHOLDERS TO MAKE CRYPTO GO MAINSTREAM

Crypto is still in its early adoption phase, and many new projects have great ideas, but lack the technical knowledge to implement them. To master these new technologies takes time, money and effort. Alternatively, projects can free up their valuable time by partnering with JustMoney's experienced team of developers, allowing them to focus on their use cases and supporters.

JustMoney's purpose is to be the enabler that helps new projects succeed, while at the same time promoting the mass adoption of cryptocurrency and helping the whole crypto ecosystem evolve.

JUST. MONEY

CREATING A TOKEN IS ONLY

THE BEGINNING

To succeed with a crypto project, you need to do more than just create a token.

It is important to maximise the time and resources you spend on your core purpose, so it makes sense to partner with someone who can help with the technical aspects.

BUILD COMMUNITY

For a project to be successful you need to find people who share your vision and believe in your project.

MAXIMIZE TRADEABLITY

JM is constantly launching products aimed at helping projects keep up with the latest trends in crypto. The ability of being on multiple chains at the same time is a great example of what JM enables.

PROVIDE USE CASES

In order for your token to be relevant it needs use cases - whether its gift cards or being able to buy from a merchant, JM has you covered.

JUST. MONEY

SOMETHING FOR THE WHOLE

ECOSYSTEM

01 PROJECTS

Tools for launching and running their token project and to grow and engage with their community.

02 USERS

Safe and easy to use platform for trading tokens and to be apart of innovative crypto projects.

03 MERCHANTS

Tools for traditional business who wants to empower the crypto community to do business with them.

JUST. MONEY

JM PROGRESS SO FAR

2021

Q2

LAUNCH

July 1st the JM token was launched.

COIN EYES

Our first community activation product, the Coin Eyes tool was launched.

Q3

JUSTMONEY SWAP

JM Swap was the first swap to have a full support for taxed tokens. Initially launched on Tron.

Q4

MULTI-CHAIN SWAP

Added support for tokens on Binance, Polygon and Zenith.

SWAP WIDGET

Custom swap widget for projects to place on their project sites.

LAUNCHPAD

A token launch platform which allows new projects to do AMM “fair launch” for their token.

GIFTCARDS PLATFORM

Allows users to send cryptocurrency giftcards to their friends and relatives.

AND WE ARE ONLY GETTING STARTED

2022

CROSS-CHAIN SWAP

Utilizing our bridge users can do cross-chain swaps between chains.

JM PAY

Allows easy wallet payments with many tokens and chains. Consists of 4 products.

MULTI-DEX ROUTING

Routes trough several dexes to find the best price for the user

Q1 · **Q2** · **Q3** · **Q4**

JM BRIDGE

Moving the swap from multi-chain to cross-chain supporting Tron, Polygon, BTTC and Binance.

DISCOUNTED SWAPS ON TRON

Fixed fee swaps on Tron. Instead of gas fee users pay 19 TRX per swap to us

EXPANDING OUR PRODUCT FAMILY

2023

JUSTMONEY SPOT

A modern and sleek sports trading interface with integrated social feeds and TradingView.

MULTI-DEX ROUTING

A routing system that adds potential "hops" to the route, including other DEXes.

Q1 · Q2 · Q3 · Q4

FLOATING CHARTS

Detachable charts allow users to create their own layout and monitor multiple pairs simultaneously.

JUSTMONEY INVOICE

An invoicing platform that enables users to effortlessly create, send, and automatically track the status of their invoices, whether paid or overdue.

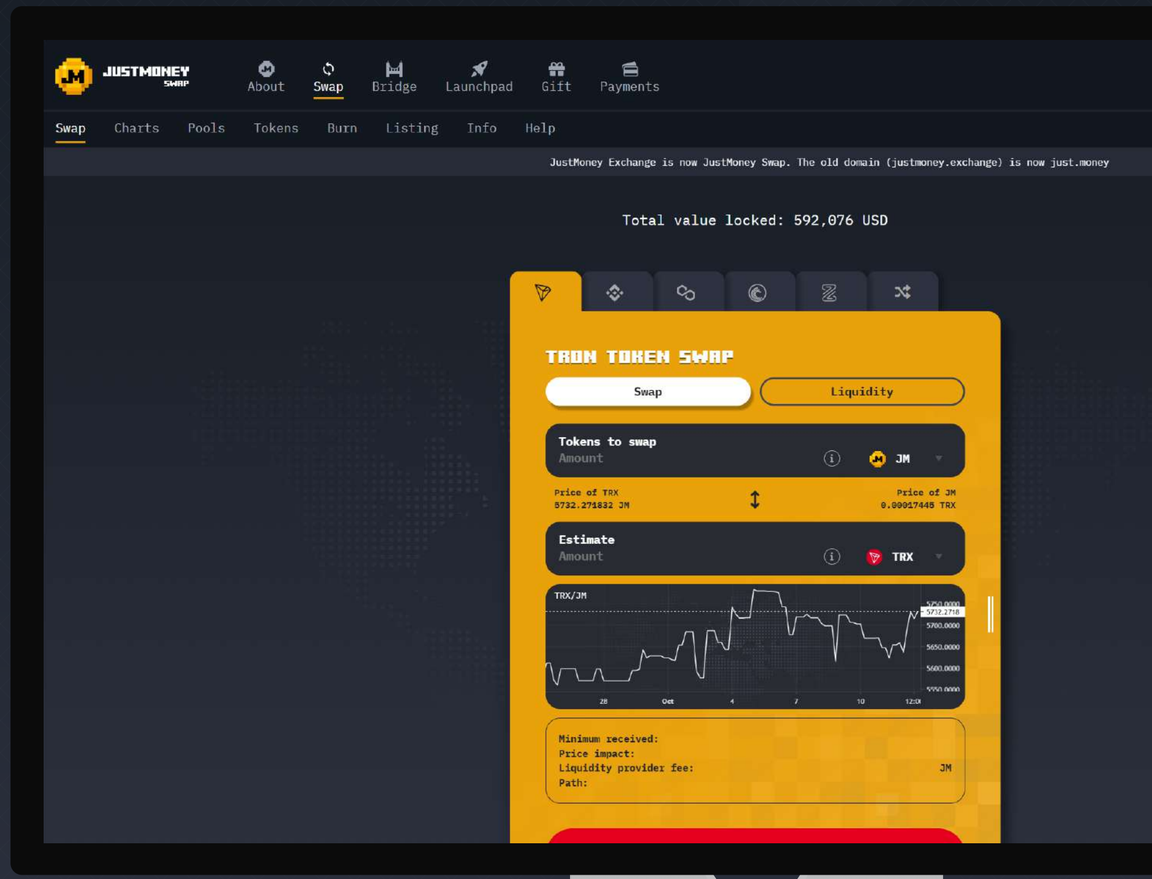
JUSTMONEY SWAP

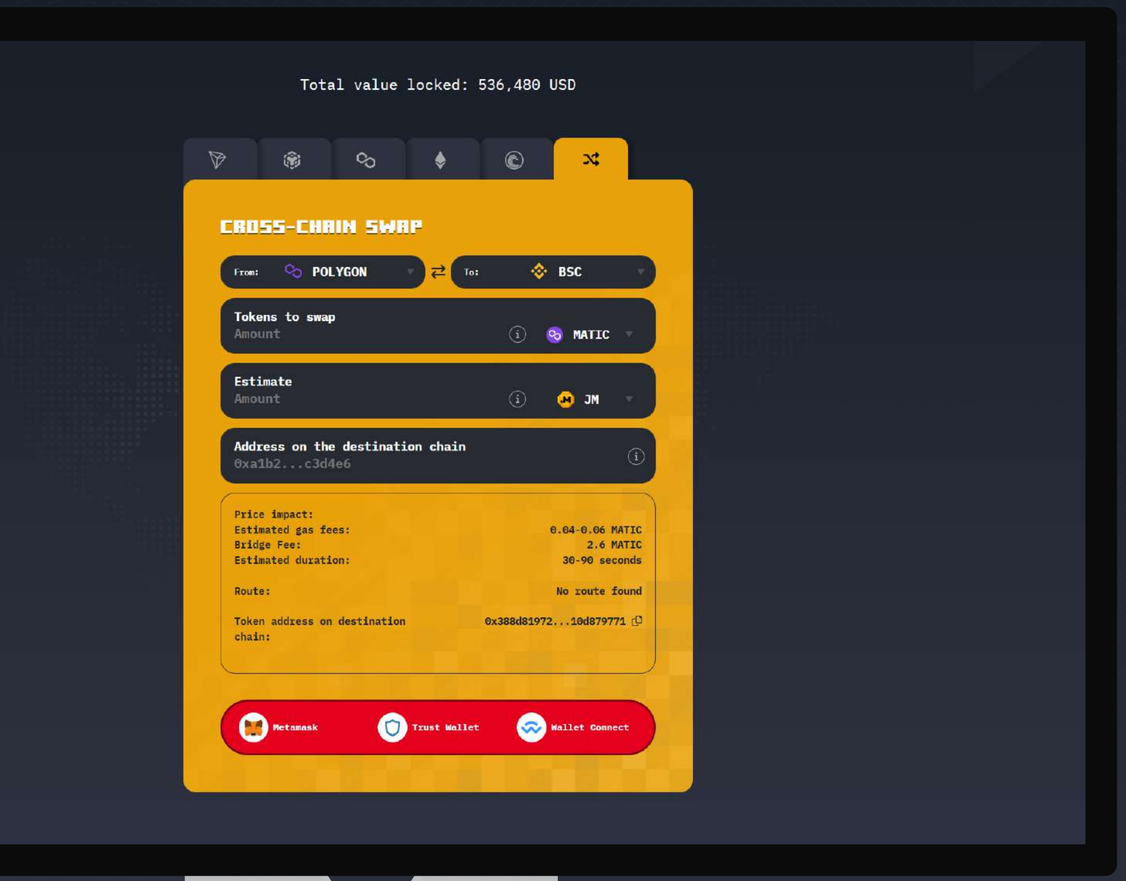
JustMoney Swap is an AMM decentralized exchange (DEX). It is the first multi-chain swap with full support for taxed tokens.

JustMoney Swap currently supports tokens on Tron, BNB Chain, Polygon and Ethereum with support for other blockchains later. Listing on the exchange is free if projects provide enough liquidity to prevent an enormous price impact.

The swap and its liquidity pools also work as a foundation for all the other products. They are all utilizing the same pools and swap interfaces creating more volume and offering more power and visibility for each listed project.

- Supports multi-dex routing (finds the best route from several swap platforms)
- Half of our transaction fee proceeds used for buy-back & burn of JM.



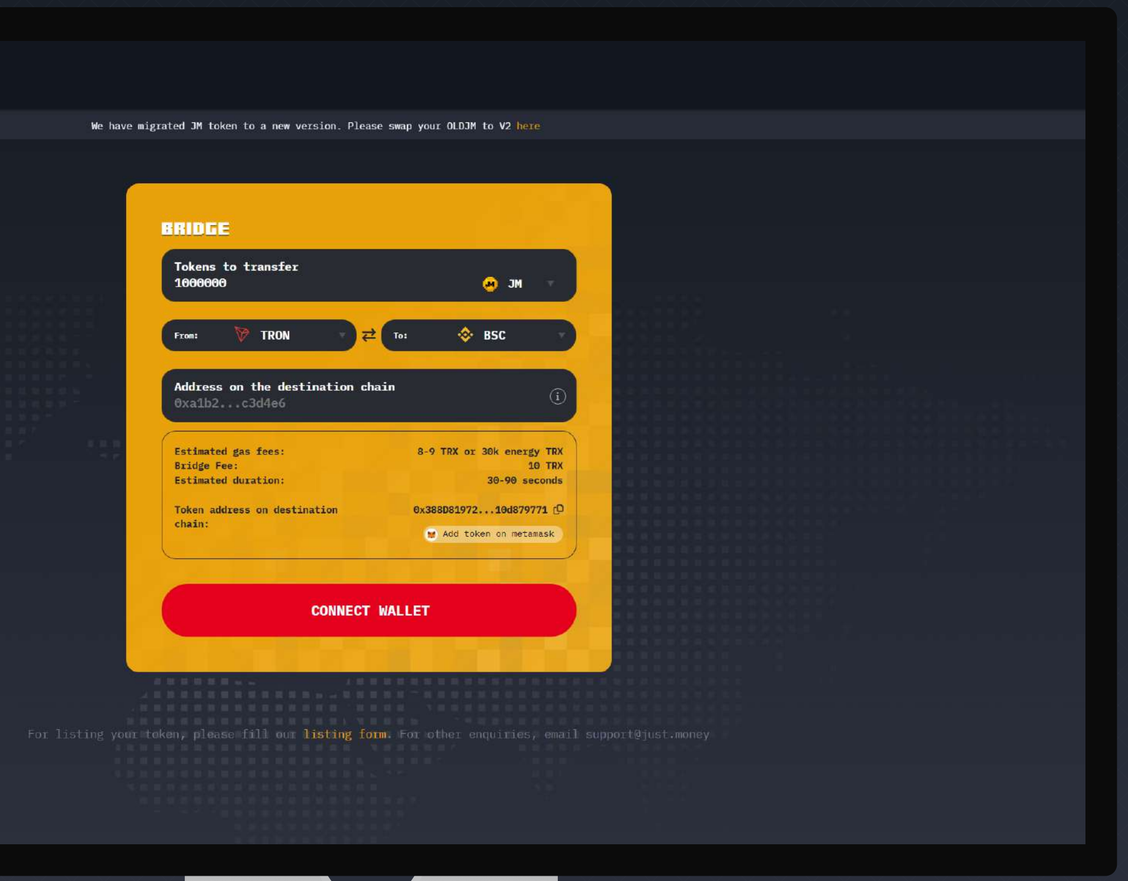


JUSTMONEY CROSS-CHAIN SWAP

Allows swapping tokens from one chain to another in decentralized manner.

Utilizes our JM Bridge and our JM token on multiple chains to move funds between chains.

- Transactions are made on-chain and no centralized exchanges are used
- Supports Ethereum, Tron, BNB Chain, Polygon and Bittorrent Chain



JUSTMONEY BRIDGE

JM Bridge (bridge.just.money) allows fast under 1-minute token transfers between chains.

JM Bridge supports Tron, BNB, Polygon, Ethereum and Bittorrent chains. More chains will be added in near future.

Projects pay a monthly fee to utilize the bridge. Users pay a transaction fee.

We support mint/burn and lock/release methods.

We have also a cross-chain swap where users can swap any token from one chain to other token on other chain. This utilizes our bridge by bridging our JM token across the chains.

- Under 1 minute transactions between chains
- Monthly fee is an additional revenue stream for us

JUSTMONEY PAY

JustMoney Pay utilizes our DeFi ecosystem by allowing users to pay online with cryptocurrency on-chain. They can use any token that is listed on our ecosystem and also the biggest pools on each supported chain. At the moment, JustMoney Pay is available on the following chains: Tron, BNB, Polygon, Ethereum, Fantom, Avalanche and Cronos.

We have a plugin for Woocommerce and also an API integration. Support for more e-commerce platforms will be added soon.

Consists of 4 sub-products: E-commerce checkout, Mobile Terminal, Payment Links and Donations

Read more at pay.just.money

- Fees: 0.25 usd + 1% per transaction
- Allows easy wallet payments with many tokens and chains

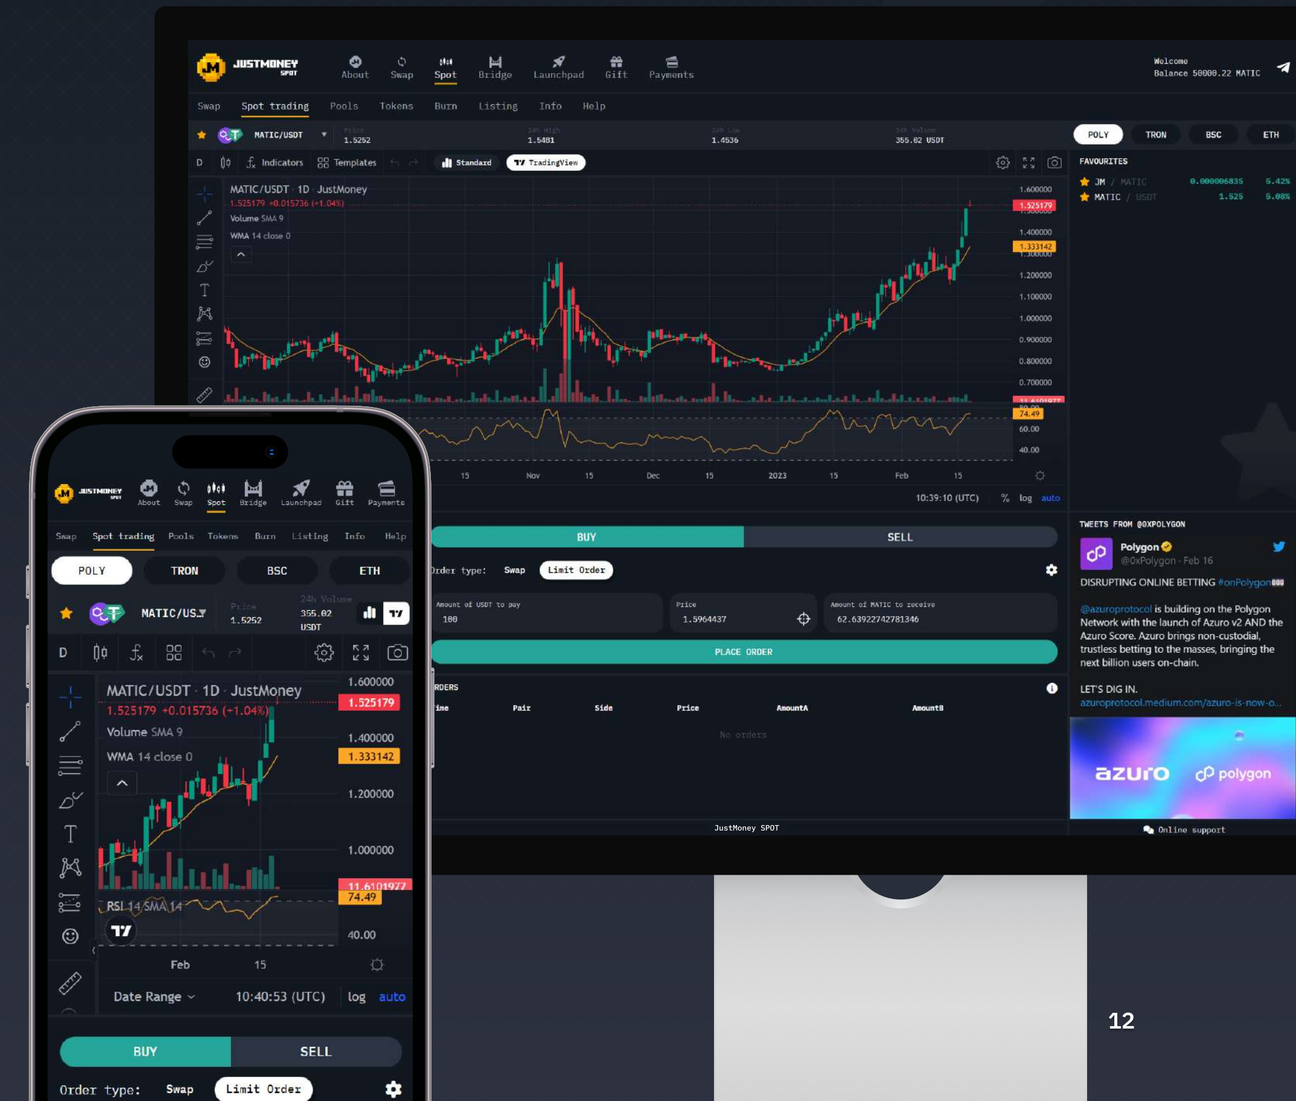
JUSTMONEY SPOT

JustMoney SPOT - Decentralized Trading Platform

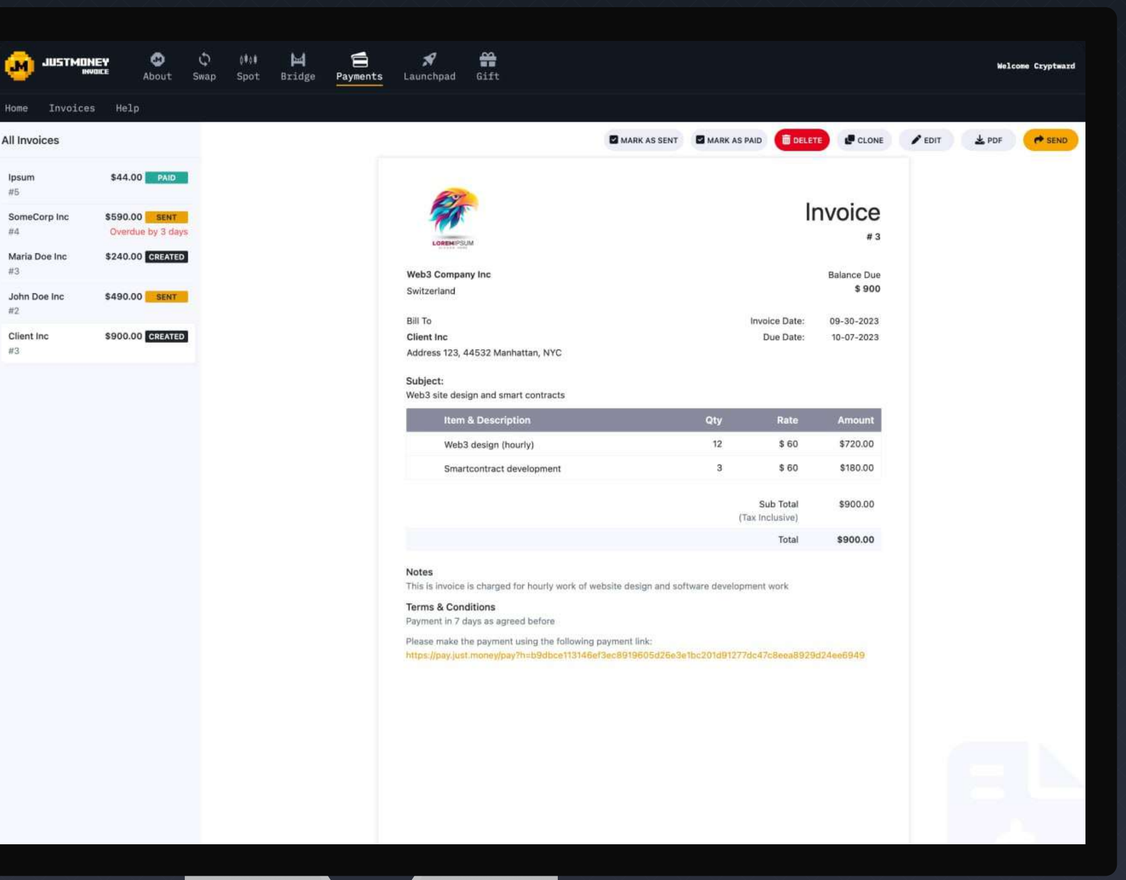
This is our newest masterpiece. Gives users a platform that is more suitable for trading (vs swap). Supports limit orders and swaps.

Swaps and limit orders are executed with multi-dex routing meaning that it finds the route that gives the best outcome for the user.

- Free limit order modifications.
- TradingView and simple charts
- Draggable order lines on chart
- Pick price from chart-functionality
- Twitter feed of selected project
- Favourite pairs per each network



JUST. MONEY



JUSTMONEY INVOICE

JustMoney Invoice is a user-friendly invoicing platform tailored for freelancers, crypto/web3 projects, and small businesses that need to issue invoices to third parties and receive payments in cryptocurrency.

FEATURES OF JUSTMONEY INVOICE

- Web3 Wallet Login
- Send to Email
- Logo Integration
- Creation/ Cloning
- Modify/Delete/ Archive
- Payments Using Several Chains
- Export to PDF
- Payment Status Monitoring

OTHER PRODUCTS / TOOLS

JUSTMONEY LAUNCHPAD

Newly created projects that list with JustMoney will be able to utilize our launchpad service launchpad.just.money. Here they can showcase and launch their token. UI is customized for them using their colors and graphics.

JUSTMONEY GIFT

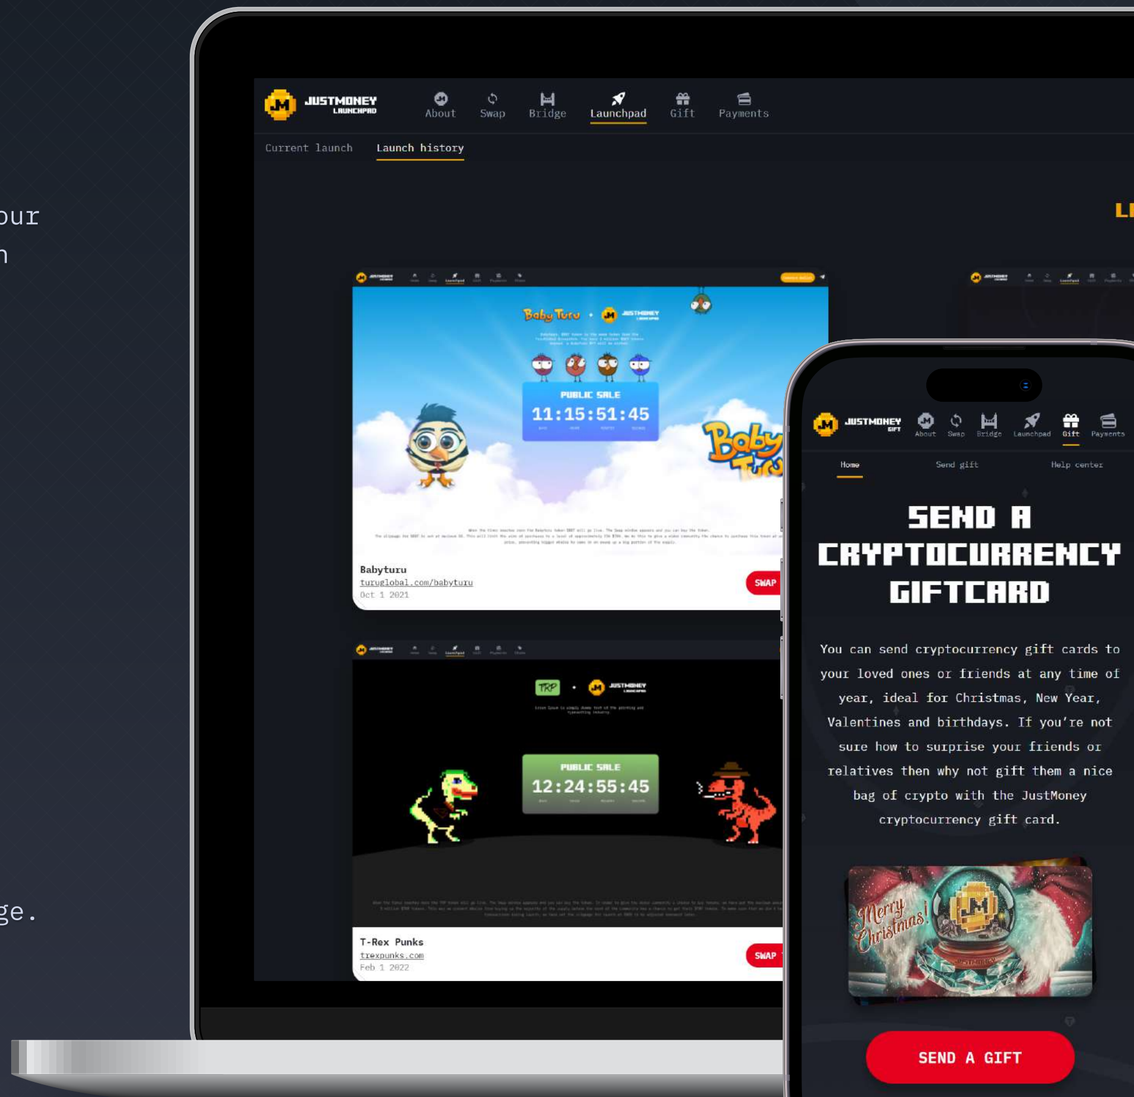
JustMoney gifting platform that allows users to send customized cryptocurrency gift cards via email to friends and family. The JustMoney gift platform increases visibility of each project and will drive token sale volume up. Projects can also provide their own card designs. The perfect gift for Christmas, New Year, Valentine’s Day, and birthdays.

JUSTMONEY CHARTING BOTS

All the projects listed on our ecosystem may utilize our Telegram bot to provide live price charts for their community.

JUSTMONEY WIDGETS

Anyone can use our easy-to-install and customizable widgets on their websites.
We provide widgets for swap, cross-chain swap, multi-chain swap and bridge.



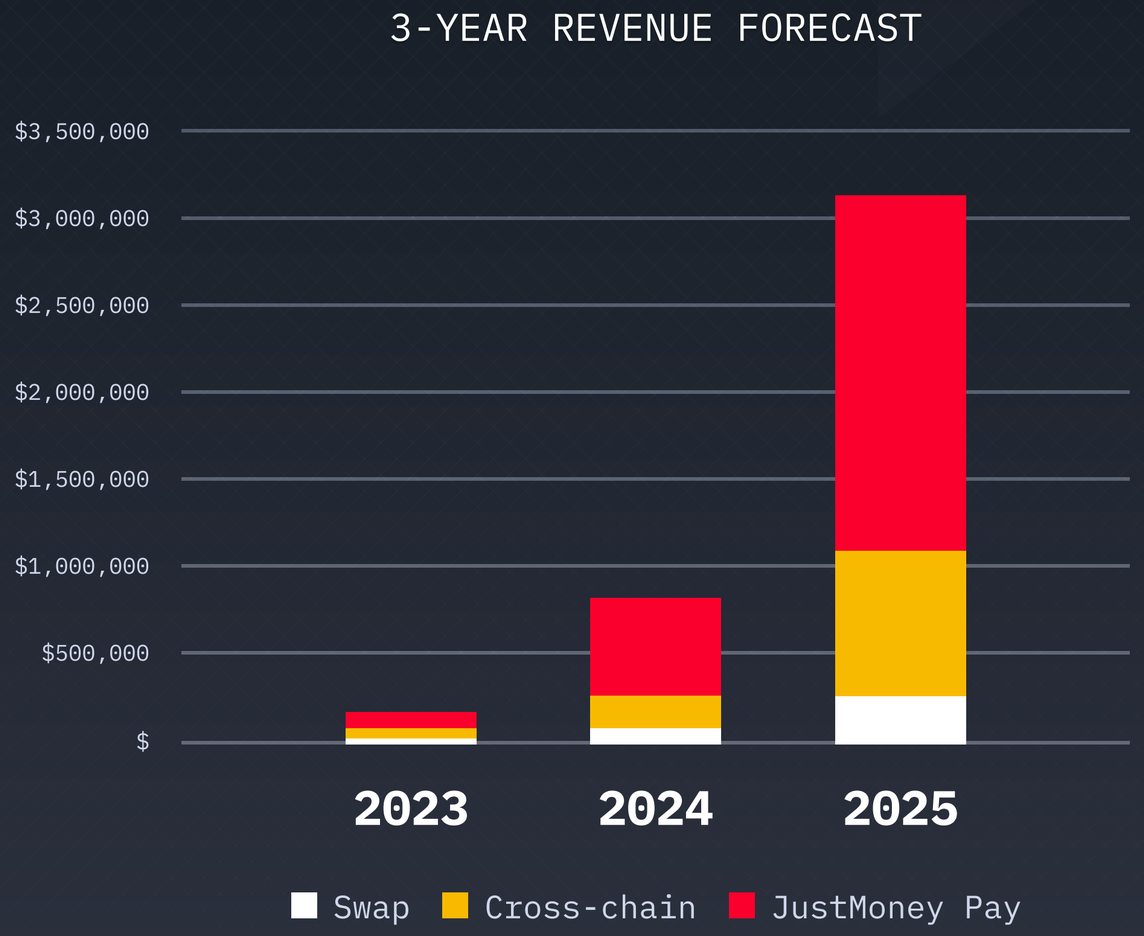
INCOME FROM MULTIPLE SOURCES

REVENUE FORECAST

It’s always hard to predict the future but through diligently splitting down revenue from each product and utilizing best assumptions we see ourselves surpassing $3M in ARR within the next 36 months.

KEY ASSUMPTIONS FOR THE NEXT 36 MONTHS:

- Growing swaps daily volumes from $50k -> $1M
- Growing cross-chain tokens 10 -> 500
- Growing numbers of merchants for JM Pay from 50 -> 200 and transactions volumes per merchant per day $300 -> $2100



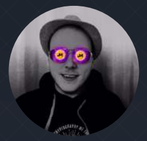
MEET THE

JM TEAM

CEO & dev

TOBIAS

Over 20 years of experience as hands-on lead of software development and ran several startups in the past.



Blockchain dev

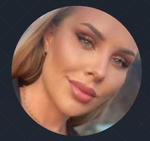
JERRY

Has extensive experience in Solidity and blockchain development. Builds all our smart contracts and bots.

Design & social

ALEXEY

Our Picasso who has a long experience in UI&UX design. Also handles our social media.



Marketing dev

LINE

Our public face who handles marketing and shoots a lot of video material for marketing and learning purposes.

External relations

JASON

Handles our community channels and also some partnership relations.

JUST MONEY

PLANS & FOCUS

It’s inevitable that the current crypto bear market is slowing down progress for the whole industry. We are using this time to improve our products and to innovate new ones so that once the market starts waking up we will be ready.

- Running a cash flow positive project
- Very talented and diverse team
- Very satisfied customers (projects)
- Proven ability to deploy innovations quickly and at scale.

01 JM Pay for merchants

02 Strengthen team

03 Market JM platform to new projects

04 Innovate new products

Thank you!
